This is UNEVALUATED Information

SOURCE EVALUATIONS ARE DEFINITIVE

1. The scope of the research work performed by the Friedrich Loeffler Institute on Riems Island was extended in 1952 by the use of facilities on Greifswalder Oie, an island in Greifswalder Bodden. On the latter island, research work was to be focused on strain C of the virus which causes foot-and-mouth disease. Strains A and B are under investigation on Riems Island. 25X1
2. The East German Ministry of Agriculture and Forestry has given the following research assignments to Professor Dr. Heinz Roehrer:
  - a. Specific experiments on the development of the effective adsorbate vaccine against foot-and-mouth disease on the basis of the causative agent of the disease.
  - b. Studies of distemper in dogs.
  - c. Studies of infectious anemia in horses.
